

## Awareness Programme on **ORNAMENTAL FISH**

KVK organized an awareness programme on “Ornamental Fish” in collaboration with Marine Products Export Development Authority (MPEDA, Guwahati Centre) on 7<sup>th</sup> August 2014 at KVK, Birchandra manu. Ornamental fish sector in the Tripura is a vibrant segment with potential for tremendous growth and large scale employment generation to rural youth. Lack of awareness and lack of technical information and funding required to establish breeding units were the main reasons for organising such programme. More than 30 farmers of South Tripura and Gomati district covering villages of Laxmicherra, Sukantanagar, Manurmukh, Mirza, West Pilak, and Indranagar attended the programme. The awareness programmes was coordinated by Dr. A.K. Singh, Programme Coordinator (KVK, South Tripura) and Sri V.V. Raju, Asstt. Director, SRO Guwahati. Dr. B. Debnath, SMS (Fishery) of KVK and Dr. P. Biswas, Asstt. Professor of College of Fishery conducted the technical session.
